

# GYMBOOT

The Gym Management System with Biometric Access Integration is a comprehensive solution designed to enhance the security and efficiency of gym facilities. This system combines state-of-the-art biometric technology with robust payment management features, ensuring secure and seamless access for authorized users.

## 1. User Management

### 1.1 User Registration

Admins can add new users, capturing essential information and biometric Id.

### 1.2 Profile Management

Users can update personal information, view payment status, and manage their profiles.

Admins have full control over user details, allowing easy modifications

## 2.1 Access Control

System verifies payment status during each login attempt.

Unauthorized users or those with outstanding dues are denied access.

## 3. Payment Management

### 3.1 Payment Verification

Realtime checks to confirm payment status before granting access.

Automated notifications for users with pending payments.

### 3.2 Admin Control

Admins can manually verify and update payment statuses.

Payment history and details are easily accessible for each user.

### 3.3 Payment Reports

Comprehensive reports on payment transactions, including date ranges and user filters.

Insights into the financial health of the gym.

## 4. Reporting

### 4.1 Access Logs

Detailed logs of each entry attempt, including successful and denied entries.

Essential for security audits and monitoring user activity.

### 4.2 Individual Payments

Admins can track and view individual payment histories.

Transaction details, amounts, and payment methods are readily available.

#### 4.3 Upcoming Payments

Calendar or notification system for admins to view upcoming payments.

Reminders help users stay informed about payment deadlines.

#### 4.4 View All Payment Dues Members

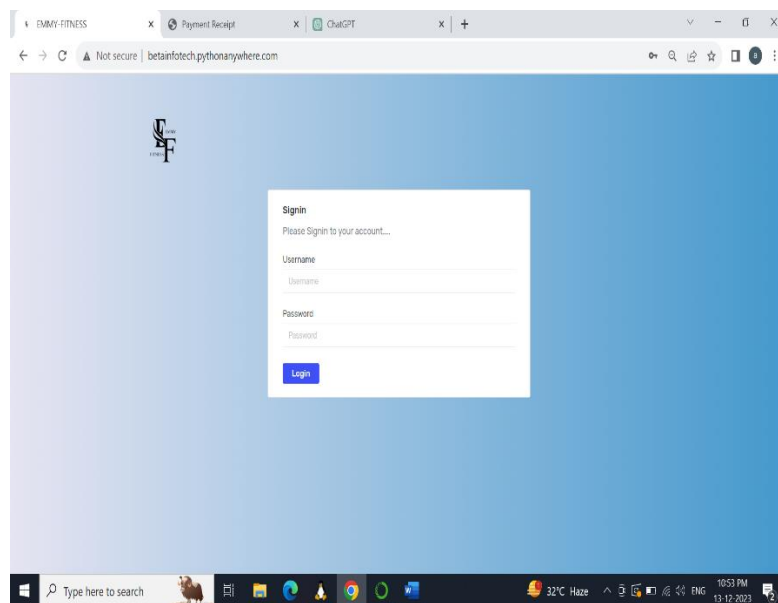

Dedicated section for admins to identify and manage members with outstanding dues.

Admins can take appropriate actions, such as sending reminders or restricting access.

#### 4.5 Generate Reports

Admins can generate detailed payment reports and user activity reports.

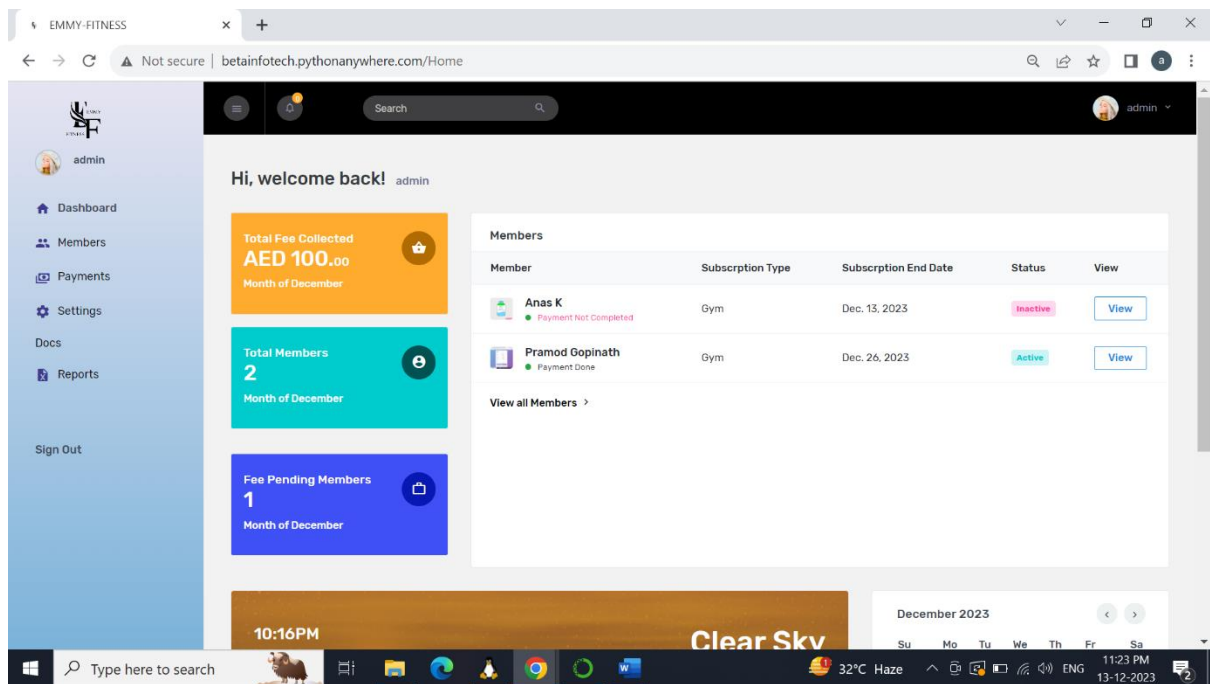

Customizable filters for specific information extract

## Home Page

The home page of the Gym Management System welcomes users with a userfriendly interface, providing a comprehensive overview of key information and quick access to essential features.

### Left Sidebar:

**Members:** Navigate through the member management section, allowing admins to add, edit, or view member details.

**Payments:** Access the payment management module, facilitating the addition, tracking, and verification of payments.

**Settings:** Configure and customize system settings, ensuring it aligns with the gym's specific requirements.

**Reports:** Generate detailed reports on user activity, payments, and other essential data.

### Right Side:

**Total Fee Collected This Month:** A realtime counter displaying the sum of all fees collected in the current month.

**Total Members Pending Fee:** Instant visibility into the number of members with outstanding payments.

**Members List with Payment Status:** A dynamic list showcasing all gym members, along with their current payment status

Clicking on the "View" button in the Members List navigates administrators to the detailed view of a specific member. This page provides a comprehensive overview of individual member information, facilitating efficient management and personalized member engagement.

## Key Features:

### 1. Member Information:

- Display of personal details including name, contact information, and membership start date.
- Biometric data for accurate identification during access control.

### 2. Payment Details:

- Overview of the member's complete payment history, including dates and amounts paid.
- Real-time payment status indicating if the member has any pending dues.

### 3. Access Status:

- Current Access Status according to the payments

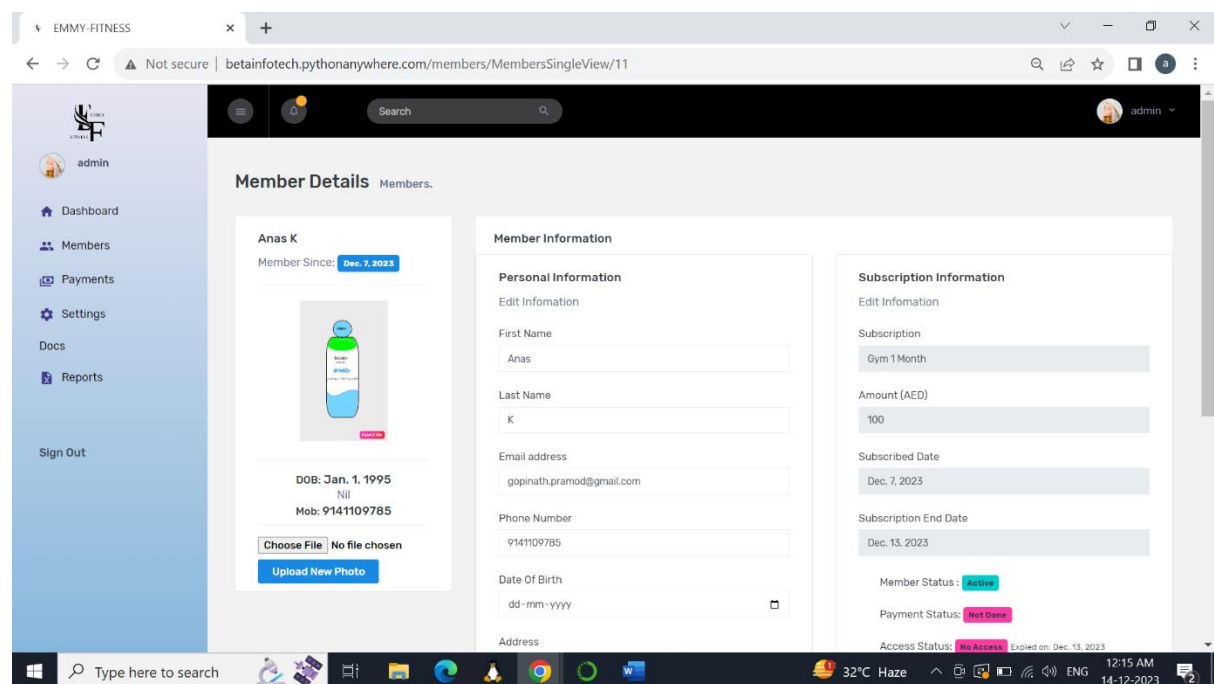

### 4. Change Subscription:

- Change Subscription allows admin to change the subscription type of the member

### 5. Add Payments:

- This Option allow admin to add member payments to the system

## Members

The "Members" option within the Gym Management System serves as a centralized hub for efficient and comprehensive member management. This section empowers administrators to oversee, edit, and interact with all gym members seamlessly.

## Key Features:

### 1. Members List:

- A dynamic and searchable list of all registered gym members.
- Quick overview of each member's name, contact details, membership status, and payment status.

### 2. Member Details:

- Clicking on the "View" button opens a detailed view of individual member information.
- Access to personal details, payment history, membership status, and biometric data.

### 3. Add New Member:

- Simple and intuitive form for adding new members to the system.
- Capture essential information such as name, contact details, and biometric ID.

### 4. Edit Member Information:

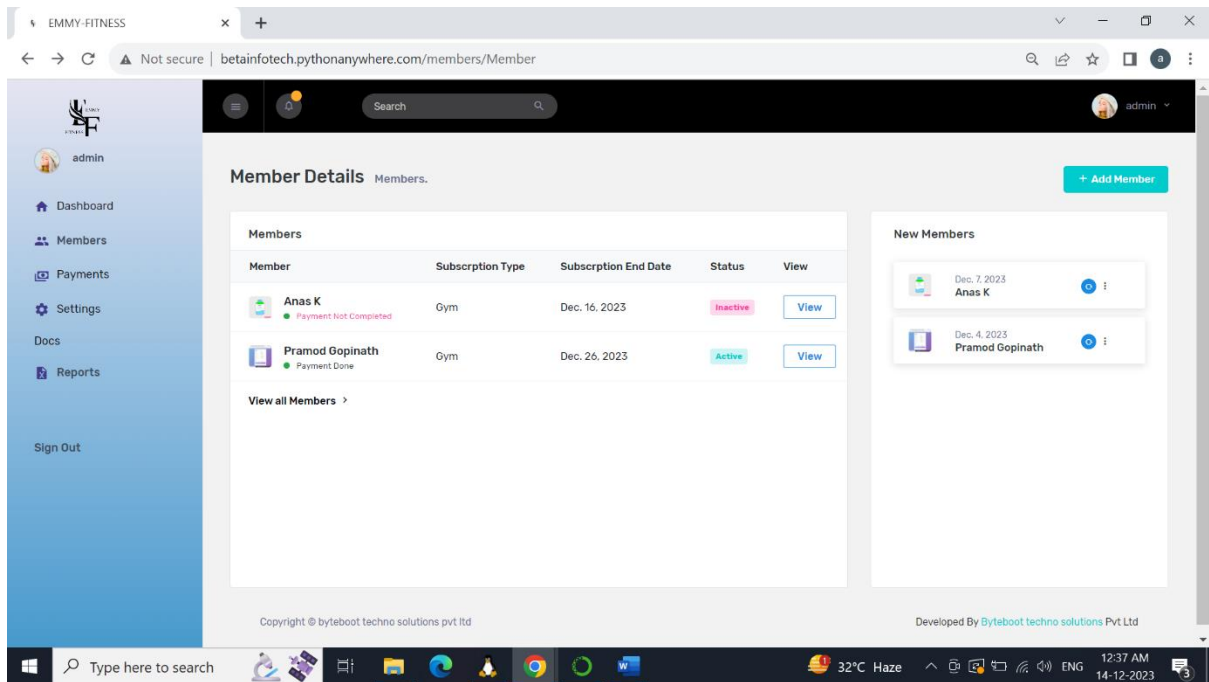

- Ability to modify existing member details, ensuring the database is always up-to-date.
- Editable fields for personal information, contact details, and membership type.

### 5. Payment Management:

- Initiate and track member payments within the same interface.
- Real-time payment status updates for each member.

### 6. Access Permissions:

- Manage biometric access permissions for each member by their payments.

## Payments

The "Payments" section in the Gym Management System is a powerful module designed to streamline the financial aspects of gym management. This section empowers administrators to efficiently handle member payments, track financial transactions, and ensure a smooth and secure revenue management process.

### Key Features:

#### 1. Payment Dashboard:

- Centralized overview displaying key financial metrics.
- Quick access to total fees collected, pending fees, and other relevant financial data.

#### 2. Add Payment:

- Intuitive form for administrators to manually add member payments.
- Capture transaction details such as amount, date, and payment method.

#### 3. Payment status:

- Status verification of member payments before granting access.

- Notifications for pending payments and automated reminders to members.

#### 4.Action:

- Get Receipt of payments .
- Delete the transaction

#### 5. Upcoming Payments:

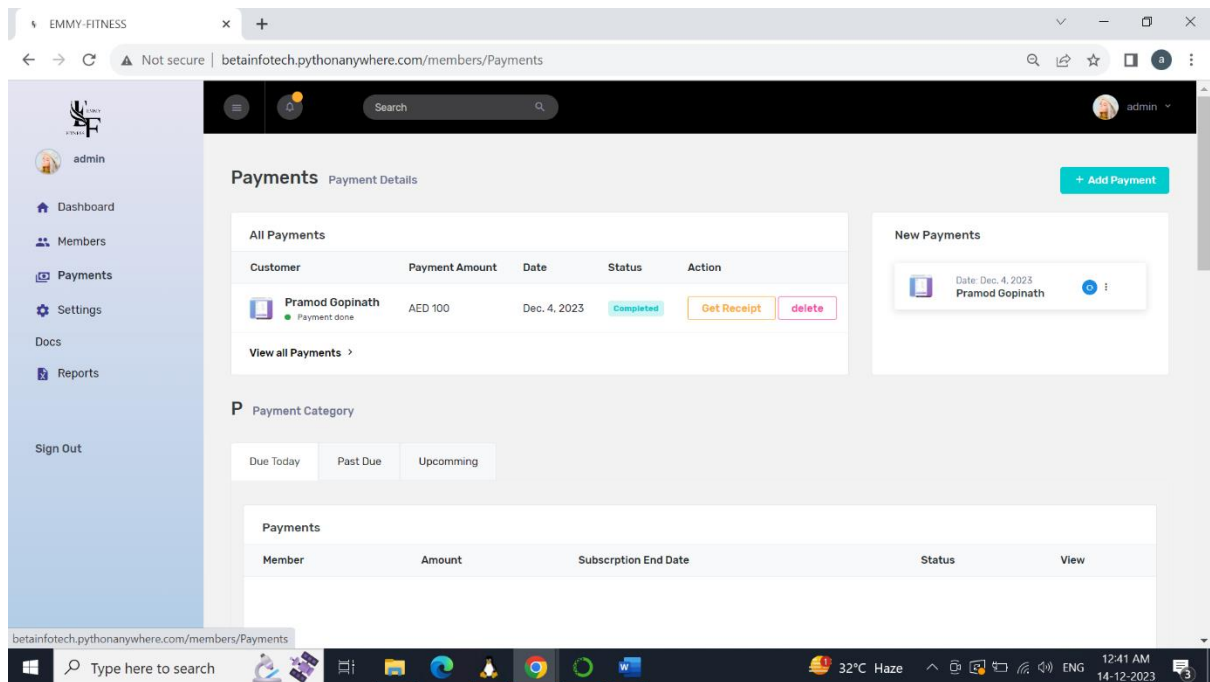

- Calendar or notification system highlighting upcoming member payments.
- Proactive reminders to ensure members are aware of payment deadlines.

#### 6. Due today :.

- Insights into total revenue, individual payments, and outstanding dues today.

#### 7.Past due:

- Dedicated section for administrators to identify and manage members with outstanding payments.
- Take appropriate actions, such as sending reminders or restricting access.
